NOTICE OF PUBLIC COMMENT
EnergySolutions LLC Mixed Waste Facility
Treatment Variance Request for High Concentration Arsenic Waste

The Director of the Division of Waste Management and Radiation Control is soliciting public comment on a site-specific treatment variance request, submitted by EnergySolutions LLC for its Mixed Waste Facility.

The Mixed Waste Facility has received approximately 105 cubic feet of Natural Gas Sweetener Filter Media. This material retains characteristic hazardous waste codes for arsenic, cadmium and benzene.

EnergySolutions proposes to treat this waste by macroencapsulation in the Mixed Waste Landfill Cell following chemical stabilization of the cadmium and benzene. This request is based on the fact that the facility has attempted a variety of treatment formulas and has been unsuccessful in attaining treatment levels for the arsenic. The other contaminants have been treated below Land Disposal Restriction levels.

The facility proposes to treat the final waste form with its in-cell macroencapsulation process. This method will isolate the waste from precipitation and potential leaching. Final disposal of the waste will occur in the Mixed Waste Disposal Cell at the EnergySolutions Mixed Waste Facility.

Documents related to this application can be reviewed at the following location:

Division of Waste Management and Radiation Control
Multi Agency State Office Building
195 North 1950 West, 2nd Floor
Salt Lake City, Utah

The public comment period begins March 1, 2016 and will end on March 30, 2016. Comments should be addressed to Scott T. Anderson, Director, Division of Waste Management and Radiation Control, P.O. Box 144880, Salt Lake City, Utah 84114-4880.

A hearing on this variance may be held if requested. This request will be presented to the Waste Management and Radiation Control Board as an informational item on March 10, 2016.

Written comments will be accepted by post or hand delivery if received by 5:00 p.m. on March 30, 2016, and should be submitted to the address below.

Scott T. Anderson, Director
Division of Waste Management and Radiation Control
Department of Environmental Quality
